

## Apprentices & Farm Crew - Full Time/Part Time Seasonal

At Sassafras Hill Farm you will have an opportunity for a hands-on experience, working and learning about all aspects of a market farm, while assisting the Farm Manager and Owners with the day to day tasks of operating the farm.

Through your daily work activities, you will learn seeding, greenhouse operations, planting, cultivating, harvesting and wash/pack/storing for production of crops, mushrooms, and eggs. You will receive experience in soil preparation, irrigation, fertilization, weeding, cover cropping, and pruning. Assisting at farm markets, with market deliveries, and special events as needed, will familiarize you with the marketing aspects of farming. We work outdoors in all types of weather, and it is important to be capable of lifting 50lbs.

Sassafras Hill Farm is an active member of NOFA-NJ, PASA and NJ-CRAFT. Apprentices will have the opportunity to participate in farm tours and workshops sponsored by these organizations and special learning events at the farm. Apprentices and Crew are welcome to vegetables for their personal consumption.

Hourly wages commensurate with experience. Housing available. Will consider Part Time. Call 609-698-1110 to apply. Email us at JTadmin@ SassafrasHillFarm.com

Sassafras Hill Farm at Barnegat, in the Pine Barrens of Southern NJ, is a 27.5 acre Certified Naturally Grown Farm with 10-12 acres currently in vegetable, berry, herb, flower, annual fruit, mushroom, fallow, and cover crop production. Our apiary provides pollination and honey. We're just initiating egg production with 100 hens. Sassafras has a CSA, an on-site farm stand, and participates in farmers markets on Long Beach Island and surrounding areas. We sell to restaurants and specialty stores. Our farm offers a venue for farm to table dinners, weddings, and special celebrations.

Our infrastructure is well developed: greenhouse, high tunnels, a wash-pack facility, early 1900's carriage barn for a farm stand, vintage/historical out buildings, office, two deeply drilled Ag wells, disks, plows, irrigation/fertigation, 4x4 drive tractors, dump truck, trailers, cultivator, seeders, rototiller, spreaders, film mulch layer w/irrigation tape, manure spreader, front loader, forklift, and excavator, etc. We have a fully operational woodworking, metalworking, and welding shop to support all the farm's needs.

Sassafras Hill Farm is 12 minutes to ocean and bay beaches on Long Beach Island. The farm is just an hour to Philadelphia, less than 2 hours to New York City, and about a half hour to Atlantic City.
